Business & Operations: Product Ownership, B2B Sales, Procurement & Logistics, HR & Recruitment, Compliance Workflows

Tools: Git, GitHub, Vercel, OCR (Tesseract), Razorpay, PayPal, ReportLab

COMMERCIAL SOFTWARE PROJECTS

Tea Country Holidays — Solo Full-Stack Developer

Commercial travel booking platform built for a travel agency client

- Architected a full-stack travel booking platform using Next.js 14, React 19, Supabase, PostgreSQL, and Tailwind CSS, deployed on Vercel.
- Engineered a custom CMS from scratch so non-technical staff could independently manage 94+ travel packages across 24 destinations without developer support.
- Designed and built the relational database schema from scratch using custom Python scripts, replacing the client's manual record-keeping.
- Closed a server-side authentication gap by implementing Supabase PKCE OAuth for the admin login flow.
- Converted client components to Server Components and added lazy-loading to cut page load times and lift Core Web Vitals scores.
- Automated client-ready PDF itinerary generation with Python ReportLab, replacing manual formatting work.

Gym CRM (IQ Iron Fitness) — Founder & Solo Product Engineer

Commercial CRM solution developed and sold to a local gym owner

- Designed and sold a custom CRM now used to manage 500+ gym members, with WhatsApp broadcast messaging and integrated trainer assignment.
- Digitized client onboarding using OCR-powered document scanning with Tesseract, removing manual data entry.
- Optimized the CRM to run lag-free on the owner's aging hardware while managing 500+ member records.
- Built a companion Gym Bill Generator tool, now live, eliminating manual invoice writing for the owner.

ClashVault — Founder & Solo Product Engineer

Escrow-enabled gaming marketplace under active development for a Clash of Clans YouTube creator's community

- Architecting an escrow-enabled gaming marketplace with native order management, targeting players across Tier-1 countries and India.
- Integrating Razorpay and PayPal to support secure cross-border transactions across these markets.
- Designing event-automation logic that syncs marketplace offers to live in-game events.

PROFESSIONAL EXPERIENCE

FOIA Specialist — SSB Media Pvt. Ltd.

Jan 2025 – Jul 2026

- Submitted 1,500+ public records requests to U.S. law enforcement agencies, sustaining 300–400 emails weekly across 60–70 distinct PIO/FOIA contacts.
- Built and maintained a nationwide contact database of 100+ police department PIO/FOIA officers.
- Processed 60+ bodycam footage files monthly, with a peak volume of 110+ files in a single month.
- Adapted verification workflows to address a rise in AI-generated content within submitted footage until the role concluded following the company's acquisition.

HR, Administration & Purchase — 3RM Management Limited

Jan 2023 – Jan 2024

- Directed HR operations for 30–40 field employees and 8–10 office staff.
- Managed INR 4–5 lakh in biweekly operational funds covering procurement and administrative expenses across departments.
- Prepared quotations of up to INR 5,10,000 for rural energy infrastructure projects.

Assistant Manager — Yogesh Commercial Pvt. Ltd. (YCPL)

Jan 2021 – Jan 2023

- Directed daily operations for a team of 30–40 laborers and 8–10 office staff.
- Recruited and hired 15 sales representatives within a 2–3 week window.
- Allocated INR 8–10 lakh in monthly funds toward sourcing and logistics for active rural energy infrastructure projects.
- Digitized decades of paper account records using OCR and Claude AI, replacing manual physical archives.

Founder & COO — Shangrila Enterprise

Jan 2020 – Jan 2021

- Founded and ran an independent commodity trading venture, hiring laborers on an as-needed basis (5–6 at a time).
- Grew the venture to INR 3.5 Cr in cumulative turnover, with individual transactions as large as INR 1.4 Cr.
- Owned compliance, procurement, and logistics end-to-end across 95+ locations in India.
- Built and maintained relationships with international buyers across Japan, China, and Russia.
